

FUNC CH VST2

What’s your perfect angle?

A tiltable ceiling mount for heavy displays

Our classical ceiling mount Func CH VST2 is both strong and neat at the same time. The functionality is outstanding! The Func CH VST is tiltable to provide the best viewing angle and cables are discreetly fed through the pipe. The Func CH VST2 is simply a reliable choice for your heavy display.

The ceiling plate allows you to mount the bracket even if the ceiling is inclined, and the unislide is user friendly and easy to mount. The Func Flatscreen H Unislide is included in the package.

Available in both landscape and portrait model!
